Local Journalism Fund
Make Taxes Fun
Department of Technology
End the Filibuster
Anti-corruption Stipends

WHY RUN FOR PRESIDENT?

"I don't have an innate desire to run for President. I have two boys. One of them is autistic. I see the future we are leaving for them and it is not a future I can accept."

A PATH TO VICTORY

A poll showed that over 10% of Trump supporters say they would vote for Andrew Yang if he's the Democratic nominee. Yang is activating thousands of independents, libertarians, conservatives as well as democrats and progressives.

If Andrew Yang is the nominee...

HE WINS THE WHOLE THING. THAT'S MATH!

ANDREW YANG

FOR PRESIDENT

CALIFORNIA

HUMANITY FIRST

What would an extra

\$1,000 PER MONTH

mean for you and your community?

**MAKE
AMERICA
THINK
HARDER**

Join thousands of fellow Californians
shaping our future at **Yang2020.com**

MADE BY SUPPORTER OF A. YANG. NO CAMPAIGN AFFILIATION
FRONT IMAGE BY MAARTEN VAN DEN HEUVEL

I'm Andrew Yang

I'm running for President as a Democrat in 2020 because I fear for the future of our country. New technologies – robots, software, artificial intelligence – have already destroyed more than 4 million US jobs, and in the next 5-10 years, they will eliminate millions more. **A third of all American workers are at risk of permanent unemployment.** And this time, the jobs will not come back.

I'm not a career politician—I'm an entrepreneur who understands the economy. It's clear to me, and to many of the nation's best job creators, that we need to make an unprecedented change, and we need to make it now. But the establishment isn't willing to take the necessary bold steps. As president, my first priority will be to implement **Universal Basic Income for all American citizens over the age of 18 \$1,000 a month, no strings attached**, paid for by a new tax on the companies benefiting most from automation. UBI is just the beginning. A crisis is underway—we have to work together to stop it, or risk losing the heart of our country. The stakes have never been higher.

130+ POLICIES THAT WILL TRANSFORM CALIFORNIA COMMUNITIES
Yang2020.com

FREEDOM DIVIDEND

We are in the midst of what experts call the **4th industrial revolution**. Automation threatens a third of all jobs.

JOBS CURRENTLY BEING AUTOMATED OR AT RISK OF AUTOMATION IN CALIFORNIA:

374,730	Cashiers in California
127,330	Truck Drivers in California
198,200	Customer Service Representatives
318,640	Combined Food Preparation and Serving Workers, Including Fast Food in California

Source: <https://www.usawage.com/>

1,018,900 Jobs at risk of full or partial automation in California.

FD IMPACT ON CALIFORNIANS

30,577,595	Number of adults over the age of 18 in California who would get the FD.
\$24,000	Per year, for a family with 2 adults.

\$30.6 BILLION/MONTH

Flowing into the state of California, into your communities, into the hands of your family, friends & neighbors.

In favor of UBI (Freedom Dividend):

Martin Luther King Jr. Civil Rights Leader	Thomas Paine (1796) Founding Father
Milton Friedman (1980) Nobel Prize-winning Economist	Elon Musk (2017) CEO, Tesla, SpaceX

1,000 Economists endorsed UBI in 1968

HUMAN CAPITALISM

The market should serve humanity—not the other way around. We need to move to a new form of capitalism, Human Capitalism, that's geared towards maximizing human well-being and fulfillment.

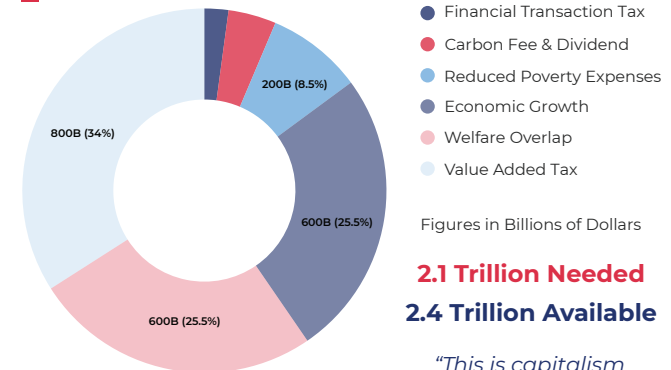

MEDICARE FOR ALL

Healthcare should be a basic right for all Americans.

We need to provide high-quality healthcare to all Americans and a Medicare for All system is the most efficient way to accomplish that.

As President, I will work with Congress to create a Medicare For All program to provide healthcare to all Americans.

How we will pay for the Freedom Dividend **without causing inflation:**

2.1 Trillion Needed
2.4 Trillion Available

"This is capitalism where income doesn't start at zero."

HOW SHOULD WE MEASURE SUCCESS?

PRODUCT

GDP

The concept of GDP was first developed by Simon Kuznets in 1934. Kuznets warned against GDP as a metric for national well-being.

H3

PEOPLE

Quality of Life / Life Expectancy
 National Optimism
 Mental Health and Happiness
 Civic Engagement
 Volunteerism
 Economic Mobility / Dynamism
 Access to Education
 Marriage / Divorce Rate
 Consumer / Student Debt
 Infrastructure
 Underemployment
 + others
