

Presidential Candidate

ANDREW YANG

On Supporting the Formerly Incarcerated

"We need to welcome people who are rejoining society and support them in moving their lives forward."

Restore Voting Rights

We all deserve to have our voices heard. Voters are more engaged with society and less likely to be reincarcerated.

Freedom Dividend

The Freedom Dividend provides all US adults with \$1000 of unconditional cash per month.

Healthcare for All

Offer a public healthcare option. Reduce prescription drug prices. Incentivize providers to support health over profits.

Overhaul the Justice System

Mass incarceration is a major civil rights issue. We must strive to have a criminal justice system that does not systematically discriminate against any groups of people.
