

Democracy Dollars has been used in Seattle to great effect, and we can take their program national to move towards publicly funded elections.

As President, ANDREW YANG will...

Provide every eligible American voter with \$100 Democracy Dollars for each federal election cycle, a voucher that they can use to support candidates of their choosing.

This amounts to \$23+ billion nationwide per election, which is more than 4 times greater than the contributions of mega-donors and dark money.
