

// THE FREEDOM DIVIDEND

// MEDICARE FOR ALL

// HUMAN-CENTERED CAPITALISM

Hi. I'm Andrew Yang.

I'm running for President because we've automated away 4 million U.S. jobs and in the next 5-10 years will eliminate millions more.

We need big solutions for the 21st century; that's why I'm advocating for **The Freedom Dividend**: \$1,000 a month for all American adults, paid for by a value-added tax that would harness the gains from artificial intelligence and automation.

If 200,000 Americans donate at least \$1 to my campaign by the debates in June, we can change the conversation to focus on the real issues facing Americans.

DONATE \$1
