

“THE WORLD’S MOST VALUABLE RESOURCE IS NO LONGER OIL, BUT DATA”

-The Economist

Have you received your data check in the mail? Big corporations, such as Amazon, Facebook, Google, and pharmaceutical companies are using your data to make a fortune.

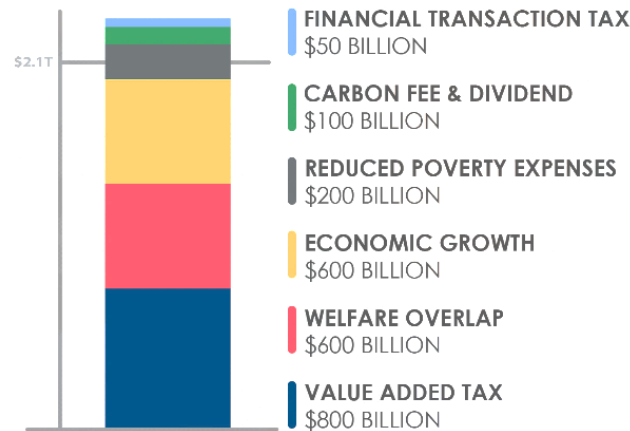

Last year, Amazon paid ZERO in taxes while making 11 billion dollars. Our current economy works for the rich. We need to create an economy that works for everyone.

Andrew Yang for President

HOW ANDREW YANG WILL PUT \$1000/MONTH IN YOUR POCKET WITHOUT BORROWING A CENT

The Freedom Dividend will put \$1000 every month into the hands of every citizen 18 or older. This would cost roughly \$2.1 trillion dollars. How do we pay for it without causing **inflation**? Luckily, Andrew Yang has done the MATH!

This is not a new idea. Martin Luther King championed and fought for a guaranteed income in the 1960s and it was what he was fighting for the day he was assassinated in 1968. This is capitalism where income doesn't start at zero.

Andrew Yang for President

“IT IS NOT IMMIGRATION. IT’S AUTOMATION”

Have you seen the rise in self-checkout kiosks? Robots are already displacing millions of workers across the country and it is only the start.

It is not immigrants that are causing job loss. It is technology. Self-driving trucks will leave millions of truck drivers jobless. Advanced voice technology will replace thousands of human call-center workers. All repetitive, mundane tasks are being automated away.

Andrew Yang for President

MAKE AMERICA THINK HARDER

HUMANITY FIRST

HUMAN-CENTERED CAPITALISM

"The unit of a Human Capitalism economy is each person, not each dollar." -Andrew Yang

WHY ARE YOU RUNNING FOR PRESIDENT?

"I don't have any innate desire to become President. I have two young boys. One of them is autistic. I see the future we are leaving for them and it is not a future I can accept." -Andrew Yang
