

Dear Neighbor,

Someone special is running for the Democratic nomination for President. He is extraordinarily good and kind, and incredibly smart and capable. The father of 2 boys (one with special needs), and Presidential Ambassador for Global Entrepreneurship, he has a unique vision for the future.

Did you know that Amazon is sucking up billions of dollars from us, putting our local stores and malls out of business, erasing jobs, and they are paying back \$0 in taxes? Andrew Yang will get some of that money back and give it DIRECTLY back to you and me. His proposed "Freedom Dividend" will give every American adult \$1000 a month, for life.

What would \$1000 a month do for you?

Andrew Yang has 160+ excellent policies on his website, including strong plans for Climate, Healthcare, Education, and Democracy Reform.

He is getting support from a broad range of political backgrounds, liberal, conservative, etc including the politically disengaged, like myself. I've never cared enough to participate in a primary election, but this is a once in a lifetime candidate who is giving me hope and optimism for the future, and it motivates me enough to write you this letter.

Please consider checking him out.

Thank you for taking the time to read this note.

Sincerely,

Your Neighbor.
