SSI REFORM  
NOW!

See why so many **Disabled Americans** support Andrew Yang!

Did you know? Currently if you are disabled and **on SSI you cannot:**

- Save more than **\$2,000** in the bank
- Make more than **\$1,260** in any month without risking losing benefits\*  
*\*(CA min. wage @ 40 hours/week = \$1,920)*
- Keep more than half of what you earn after **\$85** a month
- Make more than 2x your state's SSI without **automatically** losing your disabled status

Yang's Freedom Dividend has **no restrictions** & can be given to you too!

The **average wait time** in getting SSI approval for being disabled is 4 months, and an appeal takes an average of 15 months! When the average American cannot afford an emergency \$400 expense, we believe **that's at least 4 months too long!**
