

Meet **Andrew Yang**; a father, patriot and non-profit leader. His whole career has been running a non-profit that helped create **entrepreneurs** in interior poor cities like Baltimore, Detroit, Cleveland, Birmingham, Charlotte, St. Louis, Pittsburgh and so on. This ended up creating **thousands of jobs** for America. Obama actually awarded him for being a **Champion of Change** and named him **Presidential Ambassador for Global Entrepreneurship** in 2015. Despite the success he saw, he came to the terrible realization that automation is destroying jobs, and entire regions are being left behind. It became clear to him that job creation will not outpace the massive impending job loss due to automation. He felt like he was pouring water into a bathtub with a giant hole ripped in the bottom. Self-driving trucks and kiosks are popping up all over the nation and leaving people displaced with no other option. He warned Washington DC about this 4th industrial revolution but they all looked at him like they had no grasp of what the reality of technology is today. That's why he is running to be president.

No other candidate has a clue about technology and how it will shape our economy. **Andrew Yang has a finger on the pulse in understanding the threat of automation/Artificial Intelligence.** AI is coming at our economy at an accelerated rate---we're heading off a cliff economically without a financial plan. Millions more people are heading to poverty and **NO OTHER CANDIDATE is talking about this.**

Yang 2020

FREEDOM DIVIDEND

To avoid a very dark time ahead, Yang is proposing a **Freedom Dividend** (Universal Basic Income) of **\$1000/month age 18 until the day you die** to every American citizen **NO strings attached.**

GOALS

- ✓ End poverty in the most direct way possible.
- ✓ Prevent massive disruption that will accompany the rapid adoption of automation and other AI technologies.
- ✓ Allow people the freedom to switch jobs, move, innovate and contribute to society.
- ✓ Turbo-charge the economy by providing income to those who are most likely to spend it.
- ✓ Increase entrepreneurship which has been in decline for 40 years.
- ✓ Create a mentally and physically healthier society/ Improve children's nutrition.
- ✓ Empower people to walk away from abusive relationships.

REMEMBER WHEN THE GOVERNMENT BAILED OUT THE BANKS IN 2008 FOR **\$4.6 TRILLION** OF TAX PAYER MONEY? DID YOU VOTE FOR IT? OF COURSE NOT.

Do not let the government keep you in the mindset of scarcity. **THIS IS THE RICHEST ECONOMY IN THE WORLD**

at **\$19 TRILLION** and growing.
We are the shareholders of the **MOST WEALTHY AND ADVANCED SOCIETY IN THE HISTORY OF** world. There is nothing stopping a majority of shareholders from voting themselves a dividend. It's your money that **your data** has generated for huge tech companies. Either you vote for it or the Military Industrialized Complex gets it to fund **forever wars**
LET'S NOT SQUANDER THIS OPPORTUNITY!

Major Factors to pay for the Freedom Dividend

- VALUE ADDED TAX **\$990 billion**
A Value Added Tax (VAT) makes it much harder for large corporations, who are experts at hiding profits and income, to avoid paying their fair share. Companies like Amazon (who pays ZERO in taxes), Google, Uber, Facebook will get taxed per sale/search/mile/data they sell. A VAT is nothing new. 160 out of 193 countries in the world already have a VAT.
- ECONOMIC GROWTH **\$580 BILLION**
- WELFARE OVERLAP **\$160 BILLION**
The freedom dividend is opt-in. If you are already receiving welfare benefits you can either choose your existing program or the Freedom Dividend. It does stack with:
\$ SSDI
\$ OASDI
\$ UI (unemployment)
\$ Housing Assistance
\$ VA Disability
\$ Medicaid
- REDUCED POVERTY EXPENSES **\$120 BILLION**
- REMOVAL OF SOCIAL SECURITY CAP FOR HIGHER EARNERS **\$120 BILLION**
- REDUCED BUREAUCRACY **\$100 BILLION**
- CARBON TAX **\$100 BILLION**

Alleviating child poverty in the US would increase GDP by \$700 billion a year through higher productivity, lower crime and better health outcomes. One study found that every \$1 invested in child poverty returns \$7 to society. Investing in people more than pays for itself.
